**Frontend Engineer** with a strong focus on building **scalable**, **accessible**, and **high-performance** web applications. Experienced in **leading frontend efforts** within product teams, applying **industry best practices**, and delivering **clean, maintainable code**. Passionate about crafting **intuitive, user-centric interfaces** that balance usability with technical excellence. Adept at **collaborating cross-functionally** in Agile environments and continuously evolving with modern frontend technologies and architecture patterns.

## Skills

**Frontend:** React, React Native, Next.js, TypeScript, JavaScript, Tailwind CSS, Chakra UI, i18next, Redux Toolkit, Zustand, RTK Query, TanStack Query, SWR, GraphQL, Socket.IO

**Backend & Database:** Node.js, Socket.io, MongoDB, Prisma, Firebase

**Testing & Tools:** Jest, Git, CI/CD pipelines, Webpack, Vite

**Methodologies & Practices:** Agile, Scrum, code review, performance optimization

## Professional Experience

**Bestnet Greensoft Technology, Frontend Developer** 10/2023 – 09/2025 | Antalya

- **Architected and led the end-to-end development** of a scalable, responsive agricultural platform frontend, driving high-performance UI from concept to production.
- Developed and optimized a robust frontend ecosystem using **React, TypeScript, Redux Toolkit Query, TailwindCSS, React Hook Form, Yup** and **React Router** ensuring maintainability and extensibility.
- Integrated advanced features, including **Socket.IO** for real-time functionality and **i18next** for seamless multi-language support, enhancing user experience and global accessibility.
- **Directed a team of frontend developers, guiding architectural decisions**, conducting rigorous code reviews, and enforcing high standards of code quality and consistency.
- **Mentored junior developers**, fostering skill development through pair programming, constructive feedback, and hands-on coaching, accelerating team growth.
- Championed **Agile/Scrum** practices, collaborating closely with backend, QA, and product teams to align on project goals and deliver high-quality outcomes.
- **Drove UI excellence** by prioritizing reusability, accessibility, and performance optimization, **ensuring production-ready solutions** that met stringent quality standards.

**Ovinot, Frontend Developer Intern** 06/2023 – 08/2023 | İstanbul

- Developed the admin panel using **Next.js**.
- Actively performed **CRUD** operations and authentication processes.
- Utilized various technologies such as **Auth.js, PostgreSQL, Prisma**, and **Tailwind CSS**.

## Education

**Computer Engineering, Pamukkale University** 09/2019 – 09/2023 | Denizli, Turkey

## Projects

### CptAI

- A web application that generates AI-powered captions for your images.
- Tech Stack: **Next.js, Upstash Redis, Replicate API**

### Blogz

- A full-featured blog platform to share opinions and ideas.
- Tech Stack: **Next.js, App Router, Auth.js, MongoDB, SSR & CSR components**

### Travelify

- A platform to explore and filter places like hotels, restaurants, and attractions in a specific location.
- Tech Stack: **React (Web), React Native (Mobile)**

### Chatty

- A cross-platform real-time chat app with persistent messaging and real-time updates using Firebase.
- Tech Stack: **React Native, Firebase (Auth, Firestore, Realtime DB)**

### Logicl

- An idea-sharing platform designed for structured discussions through pros and cons contributed by the community.
- Contributed to the frontend development focusing on building a responsive and user-friendly interface.
